

Safe Space Guidelines

Our desire is to keep kids safe while they are in our care, giving confidence to parents and caregivers that they are in good hands.

- Our rooms are cleaned each week and toys sanitised each week.
- In our Nursery space, toys are used once and then put away for cleaning.
- All volunteers are screened, interviewed and complete a vulnerable sector check before serving with us.
- All volunteers receive yearly refresher training on our Safe Space Guidelines and Plan to Prevent Procedures
- Our younger volunteers are partnered with more experienced volunteers for mentoring.
- In our preschool spaces, we adhere to child-volunteer ratios to ensure each child is cared for well. Infants and toddlers are a 3-1 ratio and our Age 2-3 room is 5-1.
- Each of our small group rooms are grade specific and have at least two screened volunteers with the kids at all times.
- We have a secure check-in and pick-up system to ensure that kids are released only to authorised adults.
